

Prof. Marko Carić Ph.D. – Professional Biography

Prof. Marko Carić Ph.D. was born in 1971 in Novi Sad, where he finished studies and graduated from the Faculty of Technical Sciences in Novi Sad in 1996, earning the academic title of a Bachelor of Electrical Engineering. He also graduated from the Faculty of Economics in 1999, thus becoming a Bachelor of Economics. Prof. Carić earned his Master's degree in 2002, and three years later received his Ph.D. from the Faculty of Management and thus earned the academic title of a Doctor of Science in Management. He defended his doctoral thesis at the Faculty of Technical Sciences in 2008, whereby he received his second doctoral degree as a Doctor of Technical Sciences.

In the period 2008-2016 prof. Carić managed the process of accreditation of three higher education institutions: the University Business Academy, the Faculty of Law for Commerce and Judiciary and the Faculty of Economics and Engineering Management, which have all been successfully accredited, together with all the study programs provided by these educational institutions. Since 2008, he has worked intensively on improving the quality of higher education. Prof. Carić was also the initiator and a member of the team responsible for the implementation of ISO 9001: 2008 quality management system at the previously mentioned faculties, which have all been successfully certified for adherence to international quality standards, just as the whole University Business Academy.

He has participated in several international projects and a number of domestic and international conferences. So far, prof. Carić has published more than 50 scientific/research papers, many of which have been published in international journals. He is the author of over ten monographs and textbooks. He has mentored dozens of master's theses and doctoral dissertations. Prof. Carić is a member of the organizing committee of the 1st International Conference on Entrepreneurial Learning (ICEL).

Since 1997, he has been the main coordinator and investor in the construction of over twenty residential and commercial buildings, five of which are facilities used by higher education institutions.

He is a permanent court expert in the fields of economics and finance, as well as electrical engineering and telecommunications. He is also a member of the Association of court experts of the Autonomous Province of Vojvodina, a member of the Serbian Chamber of Engineers, and the holder of four professional licenses –for supervision of projects, project design, technical control, and installation of electrical and telecommunications equipment and facilities. Mr. Carić is also a member of MENSA.

He has completed a number of courses on the quality systems, e.g. GSM/UMTS, TOC/CC, ISDN, Data Com and Networking, successful application of management and LCMT training, modeling principles etc. Prof. Carić also completed a month-long professional specialization in the field of telecommunications specialization in 1994 in Campinas, Brazil.

Prof. Marko Carić Ph.D. is the winner of numerous awards, of which the most prominent one is the honorary title of the *"Best European for 2010"* in the domain of Management and Entrepreneurship.
